

# GLS-2

With servo controlled angle adjustment in two planes

06-10

## NC Mitre Saw for Profiled Stock

The NC Mitre Saw STEGHERR type GLS-2 can mitre-cut glass strips, water drainage channels or similar profiles of wood, aluminum or PVC at any angle between  $+45^\circ$  and  $-45^\circ$ .

Speed adjustment of the working stroke over servo axis. Accurate positioning of the workpieces over a NC pusher.

The machine can be upgraded to fully automatic operation by mounting customized workpiece conveyors.

The machine can be equipped with additional work stations (for punching and/or drilling) and ink jet or laser printers.

The cutter heads are positioned over servo axes at the angle stored in the machine program.

Operator friendly machine program for easy operation both in the manual and the online mode.
