

KSF-2E

Cross Joint Milling Machine KSF-2E

Wood · Alu · PVC · MDF

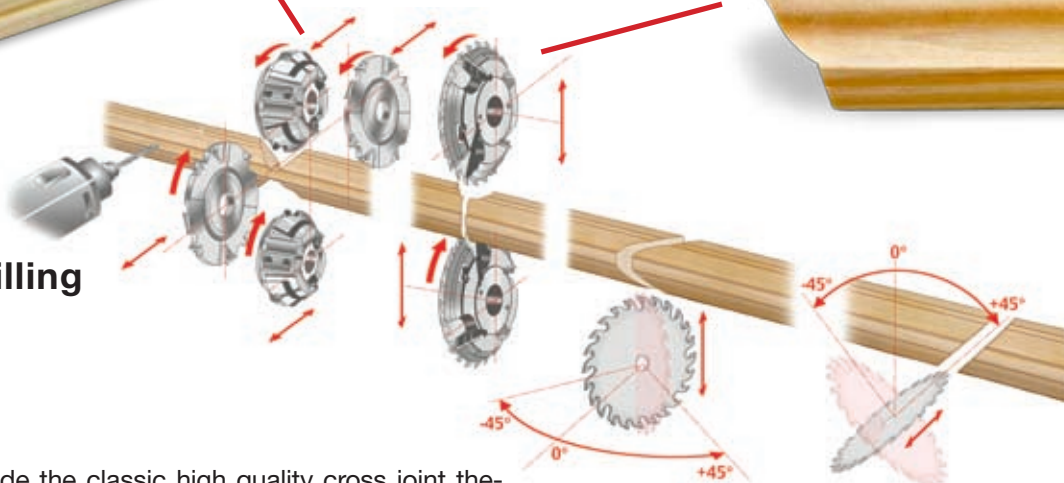

Milling for cross joints

Endscrewing

Drilling

Beside the classic high quality cross joint the machine can perform the following operations, quickly and accurately:

- End scribing of SDL bars (tear free, by means of two counter rotating cutter heads)
- Cutting to length of sash bars
- Cutting to length of glazing bars
- Cutting to length of frames
- Drilling of fastening holes for fixing glazing bars onto frames.

The machine control ensures easy operation both in the manual and in the online mode. Connection of a laser, label or inkjet printer is possible as well.

Cutting to length
