

NFT

Special machine for making the notches on the top side of bars milled on the Cross Joint Milling Machine type KSF-R

0809

Notching Machine NFT

Automatic working sequence:

After positioning and pressing the bar towards the stop the milling process is initiated by a microswitch. The milling unit moves upwards, notches the bar and returns to home position.

Technical details:

- milling motor 1,1 kW
- manual work piece clamping
- compressed air connection
- with maintenance unit
- motor protection
- connection for dust exhaustion
- voltage 400V/3Ph/50Hz

*Simple and safe operating:
Place the notch onto the stop.*

*Press the profile against the stop.
The milling process will start automatically.*

The protection cover is removed only for demonstration reasons!
